

Cut out the rectangle and fold it in half to create a square.

Glue the two sides together so that the pattern is on both sides of the square.

Colour in the maple leaves.

Cut along the dotted line. Make sure you don't cut all the way!

Bring one corner on each tab to the centre and avoid creating creases.

Use a push pin and press it into the eraser on a pencil.

You may need to wiggle the push pin around for it to move more freely.
